### Auctioneer Notes:

The blown film lines will be sold two ways: First as a bulk lot, then by piece, whichever method has a higher value is how it will be sold.

When Lines are sold by piece: if extruders or blenders have their own control, they will be sold individually, if two or more extruders/blenders share a control, the lot will be sold as one lot however "times the money" and the control will go with the lot.

Please exercise caution throughout the facility especially when climbing stairs to mezzanines, do not use any ladders.
